

TOOLS SINCE
CABLES 84
CONTROLS

Motion Pro is a team of enthusiasts dedicated to making tools and accessories that make a difference and increase your enjoyment of the sport you love. We offer an ever expanding line of exciting, innovative tools that help get the job done faster and easier, plus replacement parts and accessories that make it easy to keep your machine in top condition to get you there and back.

CABLES

Motion Pro started over 30 years ago with the idea of supplying a high-quality and affordable alternative to overpriced OEM cables. Since that time, our cable line has grown to be the most comprehensive cable offerings on the market. We offer a full line of high quality replacement cables for just about every make, model and year of motorcycle and ATV. We also offer many housing types and lengths for the V-Twin market. Our innovative line of T3 clutch cables are designed to offer competitive riders the very best cable that can be built, and feature ultimate efficiency and durability. Can't find your cable or have a custom project? Let the professionals in our **Custom Cable Department** build you what you need. Your custom cable order is made right here at our facility in California and we offer quick turn-around and unmatched dedication to quality and service.

THROTTLE TUBES

Our new line of unbreakable Titan throttle tubes sets the standard for off road performance and product innovation. Made with a proprietary and custom formulated plastic composite material, Titan throttle tubes offer superior feel and smoothness and an unmatched guarantee against breakage for a full 5 years. Motion Pro also offers a full line of affordable replacement stock throttle tubes for just about any street or off road motorcycle.

CHAIN BREAKERS

Motion Pro offers a full range of chain tools designed to fit any need or budget. Our latest creation, the PBR Chain Tool, which presses, breaks, and rivets chain, has received accolades from just about every magazine editor and from professional mechanics all over. Whether you need a professional grade tool for use in the shop, affordable tool for home, or a lightweight tool that you can use on the trail, Motion Pro has the right chain tool to fit your needs.

CONTROL LEVERS

Motion Pro offers a comprehensive line of replacement clutch and brake levers for motorcycles and ATVs. Our line of ultra-strong Forged levers are designed to offer serious off road riders a durable alternative to stock levers and provide superior resistance to breakage with smoother feel and function.

FUEL LINE AND HOSE CLAMPS

Motion Pro offers replacement fuel line and vent hose for every need. Our Premium Fuel line offers unmatched suppleness and resistance to UV and just about every type of fuel. Our Premium Low Permeation fuel line meets stringent EPA requirements for late model vehicles. We also have a full line of hose clamps and fittings for every need including your cooling system.

FLYWHEEL PULLERS

Motion Pro has a full range of flywheel pullers to fit just about every motorcycle and ATV application. Motion Pro flywheel pullers are heat treated for supreme strength and feature precision cut threads to insure smooth operation and durability. Our flywheel pullers have a durable black oxide finish with laser engraved markings. Go to www.motionpro.com and check out the convenient search function in the flywheel puller section to find the right tool for your machine.

SERVICE TOOLS

Motorcycles and ATVs need regular maintenance to keep them in top running condition. Motion Pro is dedicated to making innovative tools to make this job easier, faster, and more enjoyable. From maintaining and tuning your suspension to tuning and rebuilding your engine, Motion Pro has the right tools for the job. Go to www.motionpro.com to check out the amazing line of service tools that will help you keep your bike or ATV in top shape to get you there and back.

T-HANGLES

Motion Pro offers the widest selection of T-Handles in the industry. First to offer a deep well T-Handle, we now offer many options, including our line of Spinner T-handles, bit drivers, dual drive, and hex drive T-handles and more, see them all at www.motionpro.com.

TIRE LEVERS

Our popular tire levers and tire/wheel tools are used by top racers and teams and riders that want the best tire tools available. Our innovative and patent pending Bead Pro Tire Lever and super light and strong T6 Combo Levers set the standard for innovation, and our spoon tire levers set the bar for performance as the lever of choice for factory tire technicians. Whether it's at home, the shop or at the track, we have tire tools to fit your needs.

HARDWARE

Motion Pro offers a wide range of high quality replacement nuts, bolts, and washers. From our compact and amazingly complete off road kits that easily fit in your pack to our service shop hardware kits, we have the hardware selection you need to keep your vehicle in top condition.

ACCESSORIES

Motion Pro can't resist bringing cool, innovative ideas to market. So when our engineers came to us with amazing accessories like the innovative Micro Bleeders, the super strong and ultralight LiteLoc rim locks, the amazing Armor Rim Strip Tape, or the new Motion Pro Grip Glue, we could not say no. Go to www.motionpro.com to check out these cool accessories and many more that our engineering team has developed over the years and that will make a difference in the performance of your bike or ATV.

REEL CURVE SAMPLES

NOTE: THIS SAMPLES MAY NOT REPRESENT YOUR PARTICULAR MODEL

INTERACTIVE GRAPH shows performance gains for you application. Use the helpful **Search By Vehicle** function to see how the Rev2™ performs with your motorcycle application

TITAN™ THROTTLE TUBE

RECOMMEND USE: OFF-ROAD/MX

WILL NOT DEFORM AND SEIZE UPON A HARD IMPACT LIKE ALUMINUM TUBES CAN

Designed for the rigorous demands of motocross • Tougher and more resilient than aluminum tubes • Proprietary low-friction material provides smooth operation and eliminates galling • No irritating and uncomfortable vibration like aluminum tubes • Higher performance than aluminum tubes at a much lower cost

T3™ SLIDLIGHT™ CABLES

Anodized Billet Aluminum Adjuster
Titanium anodized finish with lightening holes

THE ULTIMATE CONNECTION BETWEEN RIDER AND MACHINE

The increased efficiency of the new T3 Clutch cables provide a lighter, smoother pull offering significantly increased performance and longevity over conventional OE cables • See our applications online

BUILDING CHAMPIONS

A LIFE TIME OF EXPERIENCE.

Buying Motion Pro means that you appreciate quality, performance and value. Every Motion Pro product is designed with the best materials, built to withstand years of use, and field tested for performance and durability before we put our seal of approval on it. We stand behind our products 100% for quality and craftsmanship.

Motion Pro has never followed. We have always led the way in innovation and creativity. We take pride in being first to market with new exciting products. Don't be fooled by copies, go with the original. Our products are designed by dedicated enthusiasts with years of experience in racing and engineering, helping to make Motion Pro one of the most respected names in the business. It is not just about the product, Motion Pro gives back to the sport we love. You'll find Motion Pro supporting everything from local events to national competitions. Motion Pro also stands behind "your rights to ride" as a proud member, sponsor and supporter to CORVA, COHVCO, Blue Ribbon Coalition, the MIC, TPA and the AMA.

These values and passion for motorcycles have been passed on from our President, Chris Carter, himself a gold medalist ISDE rider, to all of us here at Motion Pro. So when it's time to ride, wrench or race, look for genuine Motion Pro products to get you there and back.

Happy riding!
The Motion Pro Team
